

ECMC Annual Network Meeting

Wednesday 18 May 2016

Maynard Theatre A, The King's Fund, No. 11 Cavendish Square, London, W1G 0AN

CRUK Precision Medicine Team

Precision Medicine Initiatives within the ECMC Network

Chair: Rowena Sharpe

Aims:

This workshop is a chance to further discuss and develop the opportunities raised by the ECMC Precision Medicine Working Group in January 2016 and develop a national pre-screen that utilises blood based markers. It will have a scientific and clinical trial focus and we encourage representatives from both areas to attend.

AGENDA

- | | |
|---------------|--|
| 14:00 - 14:10 | Introduction and aims |
