

Immunohistochemistry Workshop

The Institute of Cancer Research and the ECMC jointly present an IHC workshop on emerging technologies and application of IHC in clinical research. The workshop is aimed to support researchers, clinicians working on IHC and PhD students.

The workshop will include presentations and discussions from leading research experts on:

- Importance of IHC in clinical research
- Validating and optimising IHC
- Application of artificial intelligence
- Immunofluorescence and optimisation of IF
- Biomarkers of interest in oncology trials

Speakers and Presenters :

- Prof. Johann de Bono, Regius Professor of Cancer Research, Professor of Experimental Cancer Medicine and Consultant in Medical Oncology, ICR and RM
- Dr. Bora Gurel, Histopathologist, Cancer Biomarkers Team, ICR
- Dr. Adam Sharp, Wellcome Trust Clinical Research Career Development Fellow, Leader Translational Therapeutics Team and Consultant in Medical Oncology, ICR and RM
- Dr. Will Howat, Director of Antibody Validation and Characterisation, Abcam
- Ruth Riisnaes, Senior Laboratory Manager, Cancer Biomarkers Team ICR
- Mateus Crespo, Senior Scientific Officer, Cancer Biomarkers Team, ICR

Date : 26th March 2021

Time : 9:00-12:30

Venue : Via Zoom

Registration: Please complete the Registration form via this link [IHC Workshop Registration Form](#) by 19th March 2021
